

# Kapsch BusinessCom

Smart Medical Application for Clinical Users

# Corporate Call

HTH - Health Tech Hub Styria Pitch & Partner 2022

Graz, Austria  
27 January 2022

<https://www.hth-styria.com/>

**Kapsch**  
**SMART**  
**HEALTH & SOCIAL CARE**

# Why should you apply...

## Your benefits ...

Win an **INNOVATION AWARD**, which will offer ...

- a monetary prize amounting to **2.000,- EUR**
- support in a **workshop with experts from Kapsch BusinessCom and healthcare professionals**
- **optional**: incorporation in the Health & SocialCare Portfolio and therefore promotion by Kapsch BusinessCom in Austria

# We are searching for ...

... **modern clinical applications** running on our „SmartMedicalHub“ Platform.

## The Requirements are

- The application is aimed at **clinical users** (doctors, nurses, patient administration,...) at **hospitals** or **nursing homes**.
- The application is **dealing** with **patient data** (medical and/or non-medical)
- All – at least medical – **data** is stored in the **HL7 FHIR format**. No data is stored at the manufacturer or in a cloud service
- The application is designed in modern architecture, ready to run as a docker container
- All data is handled **GDPR (DSGVO) compliant**, so security & privacy by design is part of the architecture

# Our major topic is ...

... to support companies from various industries in achieving their digital business goals. Together with highly trained, certified data scientists and specialists in digitization, solutions are developed to make daily work easier.

Clinical pathways, Internet of Things, IT infrastructures: Patients in hospitals and nursing homes receive better care thanks to digitalization. Administrative processes are optimized, doctors and nurses are networked, and digital tools enable more efficient diagnosis and therapy.

# Who we are & what we believe in...

## **Kapsch BusinessCom** is...

- **Austria's leading ICT solution and service provider and digitalization partner**
- a consulting and business engineering company that combines innovation with certified technology expertise and industry know-how
- working with customers in the German-speaking region plus Romania and Czech Republic
- developing new end-to-end business models in the areas of connectivity, IoT platforms, custom AI applications and software applications
- offering the perfect solution when it comes to securing all the associated data: the **Kapsch Cyber Defense Center**
- guiding customers on their cloud transformation journey and assists them in developing smart spaces and smart offices

This is made possible by years of experience as a market leader in network solutions, collaboration, data center infrastructure, security and managed services combined with technology from major international players like Cisco, Microsoft and HPE.

**Revenue in fiscal year 20/21: EUR 460 million**

**Employees: 1,550**
